What Our Clients Say

Following are some examples of how I have helped other business owners just like you.

Website

I found out my old web designer was using Haik to build his client websites, I was in the market for an updated design from the ground up and after some delays and broken promises along with an outrageous bid from my old designer i decided to just go to the source and Haik was so impressive and quick we even worked on Christmas as he cares about deadlines and his clients. I recommend Haik to anyone who needs a site. You can view the new site at <http://www.Project8films.com>

I presented Haik with a very challenging website design solicitation and Haik responded with a very competitive offer. Thereafter, Haik worked with me and my colleague back and forth, through many changes. The whole time, Haik was patient, persistent, and more importantly, creative. Haik delivered more than we asked for and hung in there to the end, always pleasant and professional. I offer my highest recommendation to anyone thinking about working with Haik!

After hiring (2) other web designers to create my website I contracted with Haik. Obviously after my prior experience, I was quite nervous and concerned initially but what I found, Haik actually read my emails and 'listened' to what I was wanting to accomplish. He did what he said he would do and within the time frame agreed upon. I would absolutely recommend Haik for your site design and know he will have your requests and best interest top of mind. Haik just did a landing page for us. He did a fabulous job and was a pleasure to work with. We had had several difficult experiences with previous designers. Haik has given me confidence that I can get good work done, in a timely fashion and at a reasonable cost. Can highly recommend. Thanks Haik.

Haik was a pleasure to work with. He delivered an extraordinary end product that has received praise both internally and externally. He was very accomodating, easy to work with, highly creative and worked tirelessly to deliver the best end product that he conceivably could. I would give him a resounding recommendation. His prices are simply the icing on the cake.

MARTIN MARINO Haik from Mundolance is a solid web developer and he is an Magento superstar. I've been working with Haik for over a year now and he has proven himself time and again not only in graphic design and development, but also on the delivery front. Haik is a superfast when it comes to turning things around and he is available 22*7 . It's always good to have a dependable developer like Haik and I'll recommend him to anyone!
